

Session 3:
Human Computer Interaction
in Real Life

Rick Schlichting

Session 3 – Human/Computer Interaction in Real Life

- User Interface Design for Industrial Automation – Carsten Wittenberg (Siemens)
- Human/Machine Interaction in Critical Systems – Denis Bernard (DIRC)
- Enterprise Vulnerability Management in Enterprise On-Demand Computing - Art Robinson (S/TDC)
- HCI for Cyber Command and Control – Sami Sabdjari (CDA)

Session 3 – Human/Computer Interaction in Real Life

Themes/Lessons

- Human as systems component
complex implications!
- It's all about mental models
more complex implications!
- User-centered user interface
- Mode confusion fundamental
avoidable?
